

Sustainability as a way of life

SEPTEMBER 2024

Doryssa Theorem Hotel

ENJOY THE TIMELESS CHARM OF SIMPLICITY

Doryssa Theorem Hotel in Samos is located right in the centre of the historical village of Pythagorion, named after the great Greek philosopher and Mathematician Pythagoras. The small city hotel is also near to other major archaeological sites of Samos, the temple of Hera and the tunnel of Eupalinos, an underground cistern and substantial technical work of antiquity. The island of Samos is covered by dense vegetation, olive groves, vineries and fruit trees, while its churches, monasteries and many villages show off a traditional side of life.

Doryssa Theorem Hotel has fully adopted the principles of sustainable hospitality, aiming to offer an authentic experience to its guests while respecting the natural environment, taking care of its staff and supporting local communities and people. Our commitment is centred around four core objectives that reflect our dedication to sustainable and ethical hospitality.

Minimizing our carbon footprint through energy-efficient practices and sustainable resource management. Our initiatives include the implementation of an awareness campaign towards guest about energy and water conservation, as well as reducing food waste and increasing the sourcing of local and low-emission food options. Our average greenhouse gas emissions for 2023 and 2024 reached 4,30 Kg CO₂e per guest night. So, we have set a long-term target (at group level) to reduce GHG emissions from energy, water and waste by 30% before the end of 2030, which translates to a 5% reduction in energy consumption and a 10% reduction in water consumption compared to 2024.

Protecting and Supporting Biodiversity, as we recognize the importance of safeguarding the delicate balance of nature. At Doryssa Theorem Hotel we actively work to eliminate the use of single-use plastics, implement waste reduction programs, and protect habitats and ecosystems. Towards this commitment we have set a goal for 2025, to double the purchase of food products holding an eco-labelling (from 5% to 10% of our total procurement budget).

Protecting and Respecting Human Rights is fundamental to our operations, and we are committed to preventing discrimination, exploitation, and harassment. At Doryssa Theorem Hotel we actively promote an inclusive environment for our guests and staff, emphasizing fair treatment and equal opportunities for all. Our policies reflect a zero-tolerance stance on any form of abuse, ensuring that human dignity remains at the forefront of our service.

At Doryssa Theorem Hotel we think of the welfare of children very highly and implement a stringent, zero-tolerance policy against their exploitation or abuse, which includes staff training on recognizing any suspicious incidents. We encourage our guests, staff and visitors to report any cases of child harassment or maltreatment to the competent authorities or the hotel management.

At Doryssa Theorem Hotel, we believe that tourism and responsibility go hand in hand. Please, join us in our mission to create a positive impact on the environment, society, and the well-being of future generations as we offer a unique stay in accordance with our values.
